Dear George:

Enclosed is a copy of the first Office Action in the above-named application. I have asked the inventors to review the action and provide comments so that you can prepare an appropriate response. Also enclosed is a copy of U.S. Patent 2,890,222 to Omietanski which was cited by the Examiner. The remainder of the references cited should be in your file. If not, let me know and I'll send you copies.

I will get back to you the first of August with the inventor's comments.
